

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

The writer could conclude that students' vocabulary at The Second grade students' of SMP Negeri Neonbat had a positive result and improved after applying pictures media materials in teaching and learning. The students ability in vocabulary mastery is still low. There are still many students who have low vocabulary and many students who do not know the meaning of some vocabulary in English and do not know pronouncing word correctly.

5.2 Suggestion

Based on the conclusion before, the writer propose the following suggestion :

5.2.1 Suggestion to The Teachers

Some teachers found a few difficulties when they taught. Such as, students did not give attention, it suggested to the teachers to use media in their teaching process. Because the media made the students focus, and interest in the lesson. The usage of the media must be selected depending on the characteristic of the class and age. The English teacher should be more creative chose method in teaching English special for vocabulary, invite and provide students with more pronounce words in the classroom. So it is suggested to English teacher applied this method as a way in analyzing students vocabulary using pictures.

5.2.2 Suggestion to School

The writer hopes every school gave to the better facilities for students to support learn English.

5.2.3 Suggestion the readers

The writer hopes this thesis could be useful not only for the English teachers and the other writer, but also to the reader of this thesis. The writer reminds to the readers about the important of English teaching to junior young learners, because the learner the learner has potential human resources and job to

guide them to the better quality of English. The readers could try to use the media like pictures in teaching and learning process.

5.2.4 Suggestion to otherwriter

Because the writer was doing this research in limited time. She realized that this thesis has not been complete yet. There were so many aspects that have not been covered in this research. That was why the writer hoped the other writer discussed about the media by using other reliable or different subject.
