

CHAPTER V

CONCLUSION AND SUGGESTION

3.1 Conclusion

Based on the data from the test and the data analysis, the research concludes that the student's master vocabulary using picture, the level of students' mastery of vocabulary is excellent and the students' difficulties in learning vocabulary using picture are:

1. The students habit of using Indonesian mainly in classroom or outside bring then to problems of doing the test in English.
2. The students have limit in learning various topics in the classroom because the materials does not cover all topics particularly health issue.
3. The students difficulties in mastery vocabulary using picture are the students are not really familiar with English words used in the test. They found it difficult to understand certain vocabulary, the use of Indonesia language more of in the classroom happened to limit their understanding of English words. One more thing is they need to see pictures which means they are dependent on pictures to understand meanings.

3.2 Suggestion

According to the conclusion above the writer would like to the suggest teachers who is teaching English especially vocabulary. The suggestions are as follows: (1).The teacher is expected to have good planning in teaching for the learners; this is based elements when teachers teach in the class. Especially to teach vocabulary to know as basic language. (2). Teacher should employ various methods and using media such as visual media picture which are needed to understand. And memorize the vocabulary. (3). Teacher is expected to create good environment in the classroom for the learners. (4). The activities in teaching vocabulary should be various and enjoyable for the learners.
