

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

Based on the result of the data analysis shown in chapter four of this study, there are some conclusions that can be drawn as follows:

5.1.1 Based on the results of descriptive text research using pictures at SMP N SATAP ANKIKO on August 12, 2021, it shows that the average student gets a score of 81.03 out of 29 students. With the average value, it shows that students at SMP N SATAP ANKIKO have the ability to write descriptive text well.

5.1.2 From the data obtained from 29 second grade students of SMP N SATAP ANKIKO, it shows that 21 students scored 80-100 (82.52%) and 8 students scored 70-79 (77.12%). This is because there are students who have not mastered many English words.

5.2 Suggestion

After knowing the ability of the students in class seven SMP N SATU ATAP ANKIKO, the writer can deliver some suggestions for English teachers, students, and next researchers in this writing as follows:

5.2.1 To students

1. The students have to study hard in English because it is very important for themselves.
2. The students should pay much attention to the materials that are given by the English teacher, especially related to the descriptive text.
3. The students should be allowed more time to see the ability that they have in writing descriptive text.

5.2.2 To Teacher

1. English teachers should pay much attention to the materials that are given, especially related to the teaching about descriptive text.
2. English teachers must give more information or explanation about teaching descriptive text.

5.2.3 To the students in class seven of SMP N SATU ATAP ANKIKO, they must be given motivation for the students.

5.2.4 To the next the researcher

The other researchers must know about the mastery vocabulary is one of the media of students to improve their knowledge about english materials.
